Chapter 11 : Turning Out Quite Well

I ended up failing with my mission, but...

Nope... It's magnificent!

it's actually turned out quite well.

...Since it looks like I can now live together with Alice-sama under the same roof,

Those are... pajamas?

...You honestly have the intention to live in this house?

You... Could it be...

I'll dazedly talk all night with her about all kinds of secrets! It'll be a pajama party!

While I'm protecting Alice-sama from all of The Organization's assassins as well as the strict control from forehead here,

It's true!

....Why are you acting so proud?!

it'd be dangerous for us to trust you completely, however...

OF course,

Err, that...

If so, I'll be sure to kill him!

Does Alice-sama have a boy she likes?!

Please calm down...

That is to say,

...It's certainly true that we are in need of Oki-san's assistance as well.

Note: In case you have forgotten, Gokiburi's full name is Oki Megumi.

Can you even do that?

Complete?

Yes.

I will place Oki-san under complete surveillance.

Until this situation is resolved,

If I tie it like this...

キュッ

I will be able to catch all of Oki-san's movements.

...Even while I'm sleeping,

When you go to the bathroom, please carry a cellphone with you.

You are also prohibited from using the phone or the Internet unless I am watching.

Even when you get up and go to sleep, eat meals, or even commute to and from school, we will always be together.

And you, obviously, please be sure not to leave my sights.

...When you are unable to abide by these rules...

This may be a little strict, but...

UNDER-STOOD!!

Is that alright?

...I shall consider Oki-san a target.

I'D PREFER IF YOU DID THAT BY YOURSELF!!

I WANT TO GO TO THE TOILET WITH YOU TOO!!

THIS IS A BIT SUDDEN, BUT WON'T YOU GO INTO THE BATH WITH ME?!

.....

AND IT'S NOT BECAUSE IT'S RED! NOR IS IT BECAUSE IT IS FATE!!

IT'S FINE IF YOU CAN STAY IN SOME PLACE WHERE I'LL SEE YOU!

LET'S PUT ON THIS RED STRING OF FATE!!

I'LL NEVER SEPARATE FROM YOU! NOT EVEN FOR A MOMENT!!

Well I'm happy we can all be friends.

Hmph.

TL Note: Megumi here references to the "red string of fate," which is a transcendental string that's traditionally believed to be red, and of which signifies the bond of two fated lovers

...I'll let her stay for now, however...

It seems I don't have any other choice, so...

The two of you.

...If there's any problem, hurry and get out.

...Please feel free to do whatever you want.

...I'll have some friends, so...

After I finish watching TV...

Under-stood.

Okay.

...I think she is actually a nice person.

She talks like that, but...

It gives off a bad feeling..!

The hell is wrong with her attitude?!

Apart from that, Oki-san,

I really can't think of her like that, bu-

Meh...

And who should we speak with?

...Specifically, where would we go to?

...you'd negotiate with The Organization...

You said that...

School.

...Tomorrow, I'll meet and talk with him in person.

I'm an acquaint-ance of that guy, so...

Ehh..?

He's hidden quite well, hehe...

there's another person from The Organi-zation too?!

Inside the school, apart from Oki-san and that school doctor,

There is a man who is a comrade of Suzume Bachi's.

A single person out of all the students.

...blending in with human society, hehe...

This insect is surpri- singly...

Y-

...I think we'll be let off soon, by one way or another.

He isn't the type who would complete y gnore our situation, so .

Please leave it to me.

Well, any- way.

What is it?

...one more thing..?

Could I ask you...

Erm...

...Oki-san...

About you joining The Organi-zation

Yes.

...You're not "Oki Megumi," right?

...In reality...

...do not have a name nor a family register, so...

People of The Organi-zation...

.....

...Do we borrow names from The Organi-zation.

...Only when we're attending school...

...Don't you feel uneasy?

No name...

It'd probably be a whole different story, but...

...Well if I had any siblings,

Mmm...

Well I don't feel uneasy nor troubled by it.

That's right.

.....

In other words...

Joining The Organ-ization...

...means you have no family.

Forever alone...

No parents, no brothers or sisters, no relatives at all.

He was the same as I am now.

Like that person.

...I don't have a single "friend," but...

On the contrary, in my case...

staying by myself one way or another is much more convenient, so...

Within my job,

Do please forgive me.

...Me hanging out with idiotic and vulnerable classmates except Alice-sama...

TL Note: Don't know a good way to word the first bubble. Megumi is just claiming that all the other students are ignorant and obviously while Alice isn't as stupid as them according to her.

Oki-san.

.....

...It's so great being hated...

Really...

...After the problem this time is resolved...

Although our relationship looks like it's related with The Organization...

We're friends now.

.....

...become friends with me..?

...Can't you truly...

Oki-san?

She fell asleep...

I have many more things I want to ask her, but...

Honestly,

...I can't see her as being a bad person...

I still don't know why, but, some way or another...

...I'll just ask them tomorrow.

...I'm sure that if I just kept talking with her...

...There are other things I'm bothered about, but...

...great friends...

...we can become...

Heh...

TL Note: In Panel 5 below, the author uses the term "Oilpiration." He made it up. It doesn't exist. He was probably just trying to make up a term which signifies the ability for something to excrete oils from the body. Just wanted to let you know.

He claims that cockroaches can be of two different names (since cockroaches are usually brownish and have a gold hue, and as well, they can excrete oils). however, in English, these two names already have their own definitions. "Koganemushi," or literally, "Yellow Gold Insect" certainly portrays a cockroach correctly. however, it has already been defined as the Scarabaeid Beetle in English. "Aburamushi," or literally, "Oil Insect" also correctly portrays the cockroach, and it in itself means cockroach, so this one is correct. Of course, it would be inconsistent to do one name in romaji and one name in English, so I just left them both romanized above.*

I am truly and deeply sorry that I took forever to do this. Arachnid Chapter 11 has been translated since forever, but due to university, I haven't been able to [illegible] QC'd at all.

I've been bogged down by meteorology and statistics, and haven't played a single bit of video gaming at all. I've just been chatting and working on the assignments for those two courses.

Coming up next is Teizokurei MONOPHOBIA, however, after that, I'll be away again to STUDY for the meteorology and statistics exams next week.

In the original Japanese, the location was not specified (it was implied, so there was no need to specify one), so in Chapter 10, I claimed her to be "hiding" for the translation back then. I would like to inform you that I have never watched Kamen Rider before, so if I'm misinterpreting a reference, I'm truly sorry about that. You're free to correct me if you do watch it and know about it, so I can fix the translation. Text in red are my own comments.

With that being said, the correct answer to the quiz was "Kamadouma." *(Possibly a reference to a previous blog post.)* Obviously, needless to say, "Kahen Rider" is a television program featured only in the world of Arachnid, so there is no relationship whatsoever with the special hero *(like a childhood hero)* we know of in real life as Kamen Rider. If it happens that there IS some relationship, I, the author, will force myself every week to attentively watch OOO. *(As in, Kamen Rider OOO. And literally, the author said he would do one of those very, very attentive sitting poses in front of the television. It's hard to explain. Try Googling for "seiza.")*

OOO is quite interesting as well, however, for me, my all-time favourite would have to be Kamen Rider Kabuto. When Kabuto and the stag beetle began, the introduction of the bee, the scorpion, the dragonfly, and the one or two versions of the two-person pair of grasshoppers you thought about years in the past were quite the fascinating line-up of Riders. In addition to that, the enemies being insect nemeses and the Zako Combatants *(this is something from the show, which I don't know, sorry)* being all Riders, Kabuto suddenly featuring the dragonfly was honestly a spectacular action-packed element *(literally, fully loaded factor)*.

Ever since Kuuga to OOO so to speak, the Riders of the Heisei Era have strived for the Shufusou *(a sort of top ranking list)* so that their cast could readily be promoted to stardom. Those cool guys who had carried this fate were fighting, being hostile, cooperative, and also living together *(sorry, I made this too literal, basically, they have to do all of those at once, feel free to reword it however you like)*, and they're forced to recall incidents of boy's love *(man-to-man moments)*. However, of course, Kamen Rider and Kahen Rider are both two different beings altogether, and Hibiki-senpai being homosexual has nothing to do with Bandai's marketing whatsoever *(implying he wants to say that he's not intentionally making fun of Bandai or anything)*. If it happens that there IS some relationship, I, the author, will force myself to seriously consider purchasing the DX OOO Driver *(Google this, it's exactly what he said)*.

Anyways, Riders are what we young people -as far as we're concerned- yearn to become for all our lives. Although there's no relationship, I think I'll continue to use their names with the show in mind. *(It should be noted that he literally says, "having a heart of respect," implying that he is keeping the show in mind while doing it.)*

This chapter was [illegible]

And yes, sorry [illegible]

I'm considering doing Arachnid 13 ahead of schedule, if I can get [illegible] and probably LGP! out first, since they're behind schedule.

The rest of the volume is filled with a lot of Alice ass-kicking action so I too don't want to miss out on it. It's pretty hardcore.

For those who didn't like how Kumo died, you'll probably be thrilled to read the next few chapters :D.

That is, the Kama-douma...

TL Note- It's not called the "Lavatory Cricket" as he says. The correct nickname is actually the cave cricket, which is notorious for hiding in cool, damp caves. However, they have been found in basements as well as places such as bathrooms, probably explaining the reason for this nickname. (http://en.wikipedia.org/wiki/Raphidophoridae)

The Kahen Rider...

and no matter what the others saw him as,

and if a person saw his power and that kicking technique of certain death...

I was wandering under the guidance of those killers..

I thought he was just another homicidal maniac.

I didn't have any idea about him.
